Welcome Note

Dear Participants,

Welcome to the Indian Institute of Remote Sensing (IIRS) outreach E-Learning Education Programme. Further to welcomi you to the course, we would like to give you some helpful information and a few hints to complete this course successful Indian Institute of Remote Sensing (IIRS) under Indian Space Research Organisation, Department of Space, Government India is a premier Training, Educational and Research Institute established for developing trained professionals in the field Remote Sensing, Geoinformatics and GNSS technology for Natural Resources, Environmental and Disaster Management. T ilding programmes ranging from three days to two year hnology tools for the collection, storage and analysis g. Planners and decision makers utilise geospat uch as agriculture, forestry, mining, market researc management.

Indian Institute of Remote Sensing (IIRS) has initiated its interactive distance education based capacity building training und IIRS outreach programme in the year 2007. Through this programme, over 10,000 students and researchers from 1 universities/institutes across the country have been trained in the field of geospatial technology. This was accomplished throu ISRO's communication satellites, satellite interactive terminals and A-View software.

To further enhance the outreach of geospatial science and technology, IIRS is now introducing e-learning based certifica course on 'Remote Sensing and Geo-information Science'. For some of you, this might be your first experience of taking up online course. Online courses provide the learners an easy way to study and develop various skills. You have to maintain th same standards of excellence that are required in face-to-face courses. You will come to know that, as an online learner, se motivation and discipline are very important. You are completely responsible for managing a regular and methodical stud system.

We are offering eight basic level programmes in e-learning mode. They are: Image Statistics, Basics of Remote Sensin Photogrammetry and Cartography, Digital Image Processing, Geographical Information System, Global Positioning Syste

Pattern and Type:

You are required to use the latest browsers (Preferably Firefox/ Chrome/ Opera), old versions of browsers are having problems with the exam system. Please follow the given instructions below.

There will be 25 questions in the exam of standard duration 30 Minutes.

Satellite Photogrammetry and its Application consist of Total 25 MCQ's.

Each Question carries 2 mark

Minimum passing mark is 20

No re-evaluation/ re-checking for online examination.

The pattern of online examination is multiple-choice questions, Match the following, True or False etc...

All questions are compulsory.

If the exam stops in between before completion, please refresh the page/ restart the exam.

Please note your marks in front of coordinator/invigilator and get his/her signature in the sheet for your future reference.

Do not press backspace button on keyboard during examination.

Do not close the browser when the test is going on.

There is no negative marking.

Disclaimer

Coordinator/Individual Students taking up the exam is responsible for uninterrupted internet connectivity, power back up, and availability of computer system in working condition
availability/failure.

Attempts allowed: 1
