140th IIRS Outreach Programme
on
Forest Carbon and Water Cycle Monitoring and Modelling
May 13-17, 2024

Programme Schedule

Date	Time	Topic	Resource person
13.05.2024	1100-1230 hrs	Understanding forest carbon and water cycles from climate change perspective	Dr. Hitendra Padalia
14.05.2024	1100-1230 hrs	Understanding forest cover and land use dynamics using earth observation data	Dr. Ishwari Datt Rai
15.05.2024	1100-1230 hrs	Monitoring and modelling of forest water fluxes	Dr. Taibanganba Watham
16.05.2024	1100-1230 hrs	Carbon and water flux measurements using eddy covariance technique	Dr. Taibanganba Watham
17.05.2024	1100-1230 hrs	Forest biomass and productivity estimation using earth observation data and modelling	Dr. Subrata Nandy
