

161th IIRS Outreach Programme
On
Recent trends in Ecological Modelling & Simulation

Date: May 19-23, 2025

Time : 1600 – 1730 Hrs

Date	Topic
19-05-2025	An overview of advances in Ecological Modelling and Simulation
20-05-2025	Advances in modelling forest carbon stock using EO data
21-05-2025	Advances in biodiversity assessment using geospatial technology
22-05-2025	Advances in modelling forest carbon and water fluxes using in-situ, satellite and models
23-05-2025	Advances in soil erosion modelling using geospatial technology
