IIRS has set up a state-of-art studio facility and control room to broadcast live and interactive classroom sessions and practical demonstrations through its Distance Learning Centre. The high definition video quality are broadcasted to its users. The IIRS outreach programme, which started in 2007 with 12 universities/institutions has now grown substantially. Currently, 1300+ Network institutions spread across India are networked with IIRS.

About IIRS
The Indian Institute of Remote Sensing (IIRS) is a constituent unit of Indian Space Research Organisation (ISRO), Department of Space, Govt. of India. Since its establishment in 1966, IIRS is a key player for training and capacity building in geospatial technology and its applications through training, education and research in Southeast Asia. The training, education and capacity building programmes of the Institute are designed to meet the requirements of Professionals at working levels, fresh graduates, researchers, academia, and decision makers. IIRS is also one of the most sought after Institute for conducting specially designed courses for the officers from Central and State Government Ministries and stakeholder departments for the effective utilization of Earth Observation (EO) data. IIRS is also empaneled under Indian Technical and Economic Cooperation (ITEC) programme of Ministry of External Affairs, Government of India providing short term regular and special courses to international participants from ITEC member countries since 2001.

IIRS hosts headquarters of Centre for Space Science and Technology Education in Asia and the Pacific (CSSTEAP), affiliated to the United Nations and provides support in conducting the Remote Sensing and GIS training and education programmes. IIRS also plays a key role in the activities of Indian Society of Remote Sensing (ISRS), which is one of the largest non-governmental Scientific Societies in the country. To widen its outreach, IIRS has started live and interactive Distance Learning Programme (DLP) since 2007. IIRS has also launched e-learning course on Remote Sensing and Geo-information Science since August, 2014.

Geospatial Inputs for Enabling Master Plan Formulation
July 27-31, 2020

**About the Course**

The Indian cities are experiencing rapid growth with share of country’s urban population increasing from 27% in 2001 to 32% in 2011. Majority of this growth has taken place in an unplanned and haphazard manner, the ill-effects of which are manifested in the form of poor quality of urban life. In order to ensure a planned development, the Govt. of India has launched the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) Mission which has a sub-scheme on ‘Formulation of GIS Based Master Plan for AMRUT cities’. IIRS along with Town and Country Planning Organisation (TCPO), Ministry of Housing and Urban Affairs (MoHUA), Goi has developed the contents of the course for capacity building of personnel involved in the sub-scheme.

We invite you to attend this training program on Geospatial modelling and applications for urban and regional areas. The course is scheduled from July 27-31, 2020. The course will contain five lectures (each of one to one and half hour duration).

IIRS has successfully conducted more than 60 distance learning courses on various themes related to Geospatial Technology and its applications so far with 1.7 Lakh participants from around 1800 Institutions/Universities (as on July 08, 2020) spread across India.

**Objective of the Course**

The overall objective of this distance learning short-term training program is to make the awareness among users/researchers/professionals about the use of geospatial inputs for enabling Master Plan Formulation process under the AMRUT sub-scheme.

**Curriculum**

Following topics will be covered in this course

- Atal Mission for Rejuvenation and Urban Transformation (AMRUT): Programme Objectives and Achievements
- Geospatial Technologies, Data and Applications in AMRUT Programme
- Survey Techniques and Navigation Systems based Data Collection for AMRUT
- Mobile Apps for field-data Collection in AMRUT Programme
- Design and Standards for Geospatial Data Creation and Enabling Master Plan Formulation under AMRUT

**Target Participants**

The candidates who want to participate in the course should be a graduate or postgraduate (any year). Technical/Scientific Staff of Central/State Government/Faculty/researchers at University/Institutions are also eligible to apply for this course.

**Course Study Material**

Course study materials like lecture pdf, video recorded lectures, open source software & handouts of demonstrations, etc. will be made available through eclass. Link: https://eclass.iirs.gov.in/login Video lectures will also be uploaded on E-Class.

https://eclass.iirs.gov.in/login

**Course Fee: NIL**

There is no course fee for live and interactive course

**Course Registration**

- Course updates and other details will be available on URL: http://www.iirs.gov.in/Edusat-News/
- To participate in this programme, the interested organisations/ universities/ departments/ Institutes has to identify a coordinator at their end. The identified coordinator will register online his/her Institute as nodal centre on IIRS website.
- All the participants has to register online through registration page (https://elearning.iirs.gov.in/edusatregistration/student) by selecting his/her organisation as nodal centre.

**Important Links**

Course updates and other details will be available on URL: https://www.iirs.gov.in/EDUSAT-News

To participate in this programme, the interested Organisations/Universities/Departments/Institutes have to identify the Coordinator at their end. The identified coordinator will register online his/her Institute as nodal centre on IIRS website (https://elearning.iirs.gov.in/edusatregistration/coordinator).

All the participants have to register online through registration page (https://elearning.iirs.gov.in/edusatregistration/student) by selecting his/her organisation as nodal centre.

**Award of Certificate**

**Working Professional and Students**: Based on 70% attendance and 40% in the online examination

As the seats are limited, the registration shall be done on first come, first serve basis.
