
Who Can Apply?
These International courses are specially designed for mid-career professionals and bright students with technical or science background interested in choosing Geoinformatics as their career. The applicants are required to have passed with First Division in any one of the subjects listed below. For working government servants, graduation in science with 2 years of experience is required for P.G. Diploma course. For details of entrance requirement, refer institute website (www.iirs.gov.in).

Aim of the Courses
To provide critical understanding of the geo-information science and earth observation technology to generate, integrate, analyse and visualize spatial data for various applications. Participants will gain skills in formulating and carrying out independent research in the general field of geoinformatics, possibly as part of a multi - disciplinary research and development project. After successful completion of the course, participants can find better job prospects in rapidly growing field of Geoinformatics, in both government and private sectors.
